

# DISTRIBUTOR AND REPRESENTATIVE OF SCIENTIFIC EQUIPMENTS & INSTRUMENTATIONS

*Idea Solutions for Elemental & Imaging Analysis*

## Material Optical Microscope

Multiphase Analysis

Graphite Analysis

Grain Size Analysis

Fluorescence

Observation, Measurement and Analysis:

- Metallurgy (grain size, multiphase, graphite).
- Failure Analysis (in fiber/textiles, ceramic/polymer).
- Polarization and Fluorescence (in fiber, polymer, cement, geology).
- Stereo, Upright, & Inverted Compound Microscope.

STEMI

AXIOVERT

PRIMOTECH

AXIOSCOPE 5

## Digital Microscope

Life Science

Wide-view 3D

Broken Composite

3D Profiling

- Handheld, 2 in 1 (Stereo & Compound) & Easy to Use.
- 2D and 3D Measurement (3D Profiling/Point Height/Volume, Area).
- Up to 10,000x digital magnification.
- Wide range of lens for many applications.
- Sample viewing from any angle!

RH-2000

HRX-01

## Bench-top EDXRF Spectrometer

NEX QC

NEX CG

- Compact, powerful, easy to use.
- Minimal or no sample preparation.
- Non-Destructive Analysis.
- Simultaneous Multi-Element Qualitative & Quantitative Analysis (results in seconds!!).

- Can be used on wide range of sample types including solids, liquids, powders, pastes, film.
- Polarized Excitation EDXRF.
- Elemental range Na to U in Periodic Table.
- Powerful Fundamental Parameters (FP) Method.

## Gas Analyzer

(Low Operation Cost, Fast Maintenance In Minutes)

- G4 PHOENIX: Determination of Diffusible Hydrogen according to ISO 3690 & AWS A4.3 of Weld Seams Sample & High Strength Steel Alloy.

G4 PHOENIX

G6 LEONARDO

G8 GALILEO

- G4 ICARUS SERIES 2: Carbon and Sulfur (CS) analyzer with high frequency furnace for application of Iron, Steel, Al, Cu, Ti & Zr Alloy, Ores, Minerals, Ceramics, Catalyst.

G4 ICARUS SERIES 2

## Bench-top & High-End Stationary Spark Spectrometer (OES)

Q2 ION

Q4 TASMAN SERIES 2

Q8 MAGELLAN

- Ideal instruments for all types of metal
  - Iron & Steel Alloy (with traces).
  - Nitrogen in Steel.
  - Fe, Al, Cu, Ni, Co, Mg, Pb, Sn, Ti, Zn Alloys (with traces).
  - Oxygen in Pure Copper.
- Complete range from ppm to percentage levels.

## Handheld XRF Spectrometer (Tracer 5)

TRACER 5

- For Methods Development, Research & Complex Materials.
- Focused Application Available On:
  - Art Authentication & Conservation.
  - Archaeological (Elemental Analysis).
  - Advanced Scientific Research.
  - Calibration (Obsidian, Mud rock, Ancient Cu Alloy).

MSI TECHNOLOGIES (MALAYSIA) SDN BHD

Address: No. 13A, Jalan 16/155C, Bandar Bukit Jalil, 57000 Kuala Lumpur, Wilayah Persekutuan, Malaysia.

Tel: 03-8993 9711/ 9548 0223 Fax: 03-8993 9755 Website: [www.msitech.net](http://www.msitech.net) Email: [info@msitech.net](mailto:info@msitech.net)

# DISTRIBUTOR AND REPRESENTATIVE OF SCIENTIFIC EQUIPMENTS & INSTRUMENTATIONS

*Idea Solutions for Elemental & Imaging Analysis*

## Handheld XRF & CounterTop XRF Spectrometer (Bruker S1 Titan & CTX)

S1 TITAN

CTX COUNTERTOP

☛ SDD Detector.

☛ SMART GRADE.

☛ Only 1.5kg with battery.

☛ Various type of materials, including light elements: **Mg, Al, Si, P, S.**

☛ Fast Alloy ID (1-3 sec for standard alloy).

☛ Ultimate defense of detector = **TITAN Detector Shield (Patented).**

☛ **Applications:** Alloys, RoHS, Precious Metal, Food, Cement, Mining.

☛ **Marine Pollution Sulfur** in Fuel Inspections.

Scan the QR Code for **FREE Alloy App!**

## Rigaku ED-XRF

NEX QC

NEX DE

NEX CG

☛ Petrochemical Application

☛ Sulfur in Oil (ASTM D4294, ASTM D7220, ISO 8745, ISO 20847, ISO 13031)

☛ Chlorine in Crude Oil (ASTM D4929)

☛ Lube Oil (ASTM D6481, ASTM D7751)

☛ Cement Application (ASTM C114)

☛ Silicone on Paper/Clay Coated Paper/Plastic

## Other Instruments

- ☛ On site metallography
- ☛ Portable microscope
- ☛ Benchtop/ Standard Scanning Electron Microscope (SEM)
- ☛ Image Analyzer for Microscope
- ☛ Petrography
- ☛ CMM Machine
- ☛ Sample Preparation (OES, XRF, Microscope)

## Other Products: Consumables, Standard, Calibration & Application Training Services

*Metal Impregnation / Capillary-Active Sealing of micro-porous materials*

*Impregnation and sealing of cast parts:  
goal-oriented, economical, durable*

*Certified Reference Material, Reference Material,  
SUS, Spectrometer Check Sample, etc.*

*Calibration, Preventive Maintenance & Training Services*
